

## Registration Information for External Wireless Equipment

### A. General Information

#### Registrant:

- Name (First & Last)

#### Contact Information:

- Name (First & Last)
- Position

#### Mailing address:

- Street
- City/Town/Village
- Telephone
- Mobile
- Fax
- Email

State purpose of Network \_\_\_\_\_

### B. Transmitter Characteristics

#### Type of Device:

1. Base Station: Broadband Wireless Access / Wireless Fidelity (WiFi) (Public Indoor and Outdoor Use) - 2.4 GHz
2. Fixed Station: Broadband Wireless Access / WiFi - 2.4 GHz
3. Base Station: Broadband Wireless Access / WiFi / HiperLAN / HiperMAN / WiMAX (Public Indoor and Outdoor Use) - 5 GHz
4. Fixed Station: Broadband Wireless Access / WiFi / HiperLAN / HiperMAN / WiMAX - 5 GHz
5. Point-to-Point Radio Communication Systems - Any of the ISM Bands

- Manufacturer Make
- Manufacturer Model
- Frequency Range of Operation
- RF Output Power (Watts/dBm)

### C. Antenna Characteristics

- Manufacturer Make
- Manufacturer Model
- Antenna Gain (dB)

- Average Height above ground (m/ft)
- Azimuth (degrees)
- Polarization
- Geographic Location [(degrees, minutes, seconds)/Decimal Degrees]

**Note:**

Topographical Diagram of network layout required. All antenna/TX locations must be geolocated.
