LETTER
TO THE
EditorBelize Steps Into a
Future of Advanced
Technology

Dear Editor,

The recent success of the Ladyville Technical High School Robotics Team at the Samsung Solve for Tomorrow Robotics Competition in Guatemala is a proud moment for Belize. Competing with the innovative "Assistive Oral Device Interface" (AODI), which converts hand gestures into text for those unable to speak, these talented students brought home silver, highlighting Belize's rising role in technological advancement.

While narrowly edged out by Costa Rica, Ladyville Tech's accomplishment signals that Belize is stepping confidently into a future where technology holds promising solutions. This achievement, following Pallotti High School's first place win last year, is a clear indication that Belizean students are ready to innovate on the world stage.

The Ministry of Education's support in celebrating these young minds is well-deserved. Such initiatives equip our youth with the skills and confidence to tackle real-world issues and drive national development through technology. The present and future of advanced technology in Belize is in-

does that. But it also is designed, from fascism forward, to make people become their worst selves, to give them permission to be as violent and unrestrained as possible. And so, deregulation, just as, you know, Project 2025 wants to deregulate environmental protections and food safety things, following what happened during the Trump presidency; there's also a deregulation of inhibitions, of morals, and so that you will be not — less bothered when the violence starts. You will turn the other cheek, or you will participate in it. And this kind of profanity, you know, at women, the misogyny, anti-Black statements, calling Latinos garbage, it's not only a tradition of dehumanization that starts with fascism and goes through authoritarian movements up to our day, it's also designed to make people feel, the foot soldiers of MAGA, that there are no restraints, there are no controls, and everything will be accepted as long as it is in the service of targeting the enemy within.

AMY GOODMAN: I wanted to go to two clips of Donald Trump, and these have become quite familiar. He called for the National Guard or U.S. military to be deployed on U.S. soil to target what he called radical left lunatics. Trump made the call, at
