# THE POT HOLE CHASER

Seven is a master at manufacturing news and of sensationalizing the trivial which often times is tantamount to lying. The latest attempt at news is with normal potholes as can be found on every highway in the world. By jove, after chasing the couple feet of Coastal Highway scrapes, one would think that they got enough of blatant silliness about roads. But the two UDPs went from silent to comatose and 7 needs some news for advertising dollars. There is LOTS of good Belize progressing news but 7 doesn't want that. They need to insult the people of Belize with some fabrication. Trump won on that premise so Shyne's UDP happy they have a blueprint. Faber-Saldivar still waiting on when to kick out their Interim. But back to the advertiser-based fake show disguised as news.

Fact: The country has been battered by constant rains even in neighbouring Guatemala whose runoff has watersheds that end in Belize. Water accumulates even on the streets of New York City but here 7's sky falls. Families have had to seek refuge because water has risen even higher than levels after 1998's Hurricane Mitch—most people in the north do not know anything higher nor has not been recorded before in the areas of the Hondo River. Yet, 7 takes its cameras to streets that have a few potholes and 'aha'. Belize should not have potholes. They would already have over buttered Imer to fill them.

Let us repeat, Seven has led the UDP

Look at the centerfold of this Belize Times. Most weeks you will see that the Town Councils and the MIDH are busy working on infrastructure especially after the rains. Take your vehicle on the highways and you will experience a better ride than in 2020. Also, everyone knows that previous to 2020 from 2008 only Imer was sucking contracts leading to UDP overbloated coffers. This was literally highway robbery.

When you put your lens on the miniscule percentage of road that has potholes it is really Trumpian level stupidity and it insults the analytical prowess of Belizean viewers. Seven is to potholes as the UDP rapist is to victims in ambulances—they chase them for a few dollars.

Wait! Isn't fake news supposed to get you in jail if

you knowingly lie to the people using media?

Truth: Under planBelize, Belizeans are enjoying hundreds of miles of upgraded roads and highways getting optimal value for dollar. Kudos to the Belize City council that has set the record straight on their constant work on the Belize City streets and their plans to alleviate the conditions cause by the recent rains. City Administrator Albert Vaughan stated on the Whip Talk Show that 149 streets in Belize City were damaged and will cost 1.6 million dollars to be repaired. The technical team will submit a list of prioritized areas of the city and the repairs are expected to begin repairs shortly. When the streets are repaired 7's cameras will roll over every inch of them to show the world the good work of the PUP.
